

HAVENS MIX

FREE OF MOLASSES

OPTIMAL CA/P

RICH IN PROTEINS

with Linseed

HAVENS MIX

is a high quality chaff of timothy grass (*Phleum pratense*), lucerne (*medicago sativa*) and a blend of linseed products (*linum usitatissimum*).

MIX can be perfectly used to upgrade your horse's diet (proteins, amino-acids, fibres) and to extend the eating time (mixed with concentrated feed). The high fibre content promotes chewing which helps saliva production, an important part of the digestive health. Linseed is a natural source of omega acids.

- Free of molasses, grains and grain by-products
- Source of high quality lucerne-proteins and amino acids
- Optimized ca/ph ratio
- Low sugar (7.3%) and starch (2.4%) content; fits in a diet low in non-structural carbohydrates
- Linseed and linseed oil provide valuable omega acids

Feeding guideline:

A bale (15 kg) is divided into 10 portions of 1.5kg each, and thus easy to dose. HAVENS MIX is an excellent choice to add to all sorts of concentrate feed and can be used as a partial or complete forage replacer. Due to its ideal ca/ph ratio, no limits apply to the feeding quantity (unlike lucerne)

HAVENS BRIX

FREE OF MOLASSES

NO CEREALS

RICH IN PROTEINS

HAVENS BRIX

consist of compressed pure lucerne and mint, ideal as a treat or to upgrade your horse's diet. Your horse can chew on the BRIX which can help relieve boredom. The high fibre content promotes chewing, saliva production and digestive health. A HAVENS BRIX in the manger together with concentrated feed will help prevent gobbling. It works like the well-known stones in the manger, except BRIX is a healthy edible alternative. Dried mint has been added to tempt even the most picky eaters.

- Highly digestible proteins (16,5%) and essential amino acids
- Low sugar content of 5,7% (hay contains usually around 10% sugar)
- Helps to buffer the acidity level of the stomach (gastric ulcers)
- Free of molasses, grains and grain by-products
- Compact and easy-to-feed
- As a treat or to relieve boredom

Feeding guidelines

One BRIX weighs about 1kg each (2.2lbs) and can be easily broken in two pieces (1.1 lbs each) and divided over several feeds. As part of your horse's daily feeding routine, 1-3 Brix a day can be fed. This advice is based on a 500 kg (1100lbs) horse in light to medium work.

Tip: HAVENS BRIX can also be used as a reward and are ideal whilst on the road or competing
