The Green-Vet

PRODUCT DESCRIPTION:

Green-Vet is a deliciously aromatic, healthy muesli made from **hydrothermally** treated cereals, carrot flakes, carob, and alfalfa, supplemented with **natural herbs** and **essential oils**. Green-Vet has a varied, dust-free formula and is **highly palatable**. This makes it an ideal healthy treat for horses. Its luxurious composition supports good recovery after exercise, helping horses and ponies appear fit for the next training session.

Green-Vet contains a **reduced portion of high-quality protein**, making it ideal for horses on high-protein roughage or with reduced protein requirements. The herbal blend of eucalyptus, peppermint, thyme, marjoram, and basil gives Green-Vet an **aromatic scent** that is often perceived as very pleasant and can have a soothing effect on the respiratory tract. Green-Vet is perfect for maintaining or boosting energy levels when given as a supplement. It contains a dual energy source from grains (including oats) and oil for long-term energy.

- ✓ **Low protein** content
- ✓ Contains hydrothermally treated grains for **optimal digestibility**
- ✓ Varied and highly **palatable** composition
- ✓ Contains high levels of all necessary vitamins, minerals and trace elements to support **immunity and health**
- ✓ **Dust-free** and with additional herbs; beneficial for the **airways**

High energy level with

a luxurious herbal blend

Packaging: **20kg** bags

Composition: **Muesli**

COMPOSITION:

Oats, Maize flakes, Barley flakes, Lucerne, Maize heat treated, Cane molasses, Wheat middlings, Soya bean hulls(*), Carob, Carrot flakes, Calcium carbonate, Dried (sugar) beet pulp, Maize(*), Sunflower seed meal, Vegetable oil and fat (Linseed), Sodium chloride, Monocalcium phosphate, Dextrose, Vegetable oil and fat (soja(*)), Magnesium oxide, Herbs(0,1%), Vegetable oil and fat (etheric)

*=produced from genetically modified soybeans or mais.

FEEDING ADVICE:

It is important to feed a diet and quantity that meets the lifestyle and needs of the horse. A general guideline for the recommended total amount of concentrates per day:

- For maintenance and basic sport: 0.2 - 0.5kg per 100kg bodyweight
- For (top) sport: 0.5 - 0.75 kg per 100kg bodyweight
- Divide this daily ration into at least 2 - 3 meals per day.
- Always feed at least 1.5% of your horse/pony's body weight good quality based on dry matter roughage.
- Fresh drinking water must be available at all times
