HAVENS

Mix

Powered by **HAVENS** MIX

PRODUCT DESCRIPTION:

A horse's digestive system is designed to digest fibres. It is therefore very important that a horse/pony is offered sufficient roughage daily, preferably unlimited. As the quality of the current roughage is often variable and difficult to determine, we have brought the HAVENS MIX onto the market.

HAVENS MIX is a high-quality roughage mix of **Timothy, alfalfa and linseed** (pellet and oil). It contains **14% high-quality protein** and low levels of sugar and starch. This makes HAVENS MIX a nice upgrade to many roughage batches and is suitable for a variety of horses and ponies. HAVENS MIX is cut short, which also makes it an ideal solution for (older) horses that struggle to chew roughage effectively. Mixing the roughage mix with the concentrate extends the eating time and ensures that the horse has to chew more. This also makes the horse produce more saliva, which is important for healthy digestion. The addition of linseed ensures an optimal calcium-to-phosphorus ratio, provides a natural source of omega fatty acids, and contributes to a shiny coat, while the inclusion of timothy and linseed oil ensures a **soft texture**.

- ✓ Free of **molasses, grains and grain by-products**
- ✓ Source of high quality **proteins (14%)** and amino acids
- ✓ **Low sugar (7.3%) and starch (2.4%)** content; fits in a diet low in non-structural carbohydrates
- ✓ Linseed and linseed oil provide valuable **omega acids**
- ✓ **Optimised** calcium/phosphorus ratio of 2:1
- ✓ **Softer in texture** compared to pure alfalfa stems

*Low starch and sugar content
& high in protein!*

NUTRITION/KG

Crude protein	14 %	Starch	2.4 %
Crude fat	6.8 %	Calcium	0.8 %
Crude fibre	25.0 %	Phosphorus	0.4 %
Crude ash	9.2 %	Magnesium	0.2 %
Sugar	7.0 %		

Packaging: **15kg bags**

Composition: Roughage

COMPOSITION:

Dehydrated timothy grass 45%, dehydrated lucerne 42%, linseed expeller, linseed 10%, linseed oil 3%, monocalcium phosphate

FEEDING ADVICE:

- As a 100% roughage replacement: approx. 1.5 kg per 100 kg body weight per day.
- To upgrade roughage rations: 1 kg HAVENS MIX replaces 1 kg of hay.

Horses that create clumps of roughage often benefit from supplementing with a short-cut roughage product such as HAVENS MIX.
