HAVENS ProtiPower 25

Premium protein booster (25%) with essential amino acids

PRODUCT DESCRIPTION:

HAVENS ProtiPower 25 is a specialised 4.5 mm supplementary pellet designed to enrich the daily ration with high-quality protein. It is the ideal choice for horses that need extra nutritional support for muscle development, growth, and recovery.

Whether it concerns young horses in development, sport horses in intensive training, or horses receiving forage with a lower protein level, ProtiPower 25 helps provide targeted nutritional support where it matters most.
With 25% crude protein, added essential amino acids, and an elevated level of vitamin E (750 mg/kg), ProtiPower 25 actively supports strong muscle development, helps maintain optimal condition, and contributes to effective recovery after exercise.

Its carefully balanced formula is free from whole grains, resulting in a low starch and sugar content (below 15%). This makes ProtiPower 25 an excellent option for horses that thrive on a grain-free or starch-conscious diet. It is also particularly suitable for horses that are sensitive to grains or prone to fluctuations in energy levels.

Thanks to its targeted formulation and low daily feeding rate, ProtiPower 25 is also well suited for horses that require a low sugar and starch intake due to metabolic challenges, while still benefiting from the extra support of premium-quality proteins and essential amino acids.

- Contains **25% high-quality protein** and is enriched with essential amino acids.
- **Low in starch and sugar** (total below 15%).
- Rich in vitamins, minerals and trace elements.
- Free from whole grains.

High-quality protein (25%)

Free from whole grains

Vit C	200 mg
Minerals (T):	
Ca/P Ratio	1.9
Calcium (Ca)	13.0 g
Phosphorus (P)	6.8 g
Magnesium (Mg)	4.5 g
Sodium (Na)	7.9 g
Potassium (K)	16.1 g
Trace Elements (A):	
Iron (Fe)	225 mg
Copper (Cu)	30 mg
Zinc (Zn)	375 mg
Manganese (Mn)	165 mg
Cobalt (Co)	3 mg
Iodine (I)	2.2 mg
Selenium (Se)	450 mcg

T = Total A = Added

Packaging: **20 kg** zak
Composition: **4,5 mm pellet**
Item number **05046**

COMPOSITION:

Soya meal(*), Sunflower seed meal, Wheat middlings, Soya bean hulls(*), Lucerne, Rape seed meel, Cane molasses, Calcium carbonate, Sodium chloride, Vegetable oil and fat (soya(*)), Soya (bean) protein concentrate, Vegetable oil and fat (Linseed), Potato protein, Magnesium oxide, Monocalcium phosphate, Magnesium carbonate, Vegetable oil and fat (palm)

*=Produced from genetically modified soybeans and maize.

FEEDING ADVICE:

It is important to feed a diet and quantity that meets the lifestyle and needs of the horse. A general guideline for the recommended total amount of concentrates per day:

- 0.1 kg to 0.2 kg per 100 kg body weight depending on the total amount of concentrate feed
- Maximum 1.5 kg per day for a 600 kg horse

- Divide this daily ration into at least 2 - 3 meals per day.
- Always feed at least 1.5% of your horse/pony's body weight good quality based on dry matter roughage.
- Fresh drinking water must be available at all times.
